

# Welcome to The Monnaco Collection

Thank you for downloading. Here's what's inside.

You're holding 14 hand-crafted illustrations pulled from eight different collections in our library. An olive branch from Aperitivo. A coffee cup from Crema. Westminster Abbey from London Calling. A French Bulldog from Loyal Companions. Fourteen pieces, eight collections, one artistic vision.

I love seeing these together. Notice how the palette holds. How the texture connects a dumbbell to a gardenia to a chocolate bar. That coherence isn't an accident. Every piece in The Monnaco Collection is designed to work alongside every other piece in the library. It's not a database of random images. It's a visual system.

You'll also find a few surprises in this folder. Six film-style photographs that complement the illustrations, and six ready-to-use Instagram Story templates built with assets from the collection. Consider them a thank you gift from me for being here.

## How to Use These Assets

These illustrations and photographs are intentionally versatile. They work beautifully for brand identity and visual storytelling, website headers and landing pages, social media posts and email campaigns, mood boards and client presentations, menus, packaging, and print materials.

Use them wherever your work needs warmth, texture, and a sense of intention.

The full library currently has over 1,200 assets across 18 curated collections, with new content added every week. If what you see in this folder feels right for your brand, there's a whole world waiting.
